The Secret Of Happiness

Trib Gold Capsule Has A Robust Effect In Elevating The Testosterone Level (From 220 ng/dl to 270 ng/dl) By 23%*

Thank you OUR GENEROUS SPONSORES:

Motility Max®

- » Promotes Improvement of Sperm Motility
- » Supports Reduction of Psychological Stress
- » Supports Healthy Blood Flow
- » Acts as an Antioxidant

AMS® Motility Max is a dietary supplement designed to help improve sperm motility, a capacity for sperm to propel themselves forward for a sustained period of time. Thanks to its all-natural formula, **AMS® Motility Max** helps men improve their reproductive health and sperm quality.

For example, Mucuna Pruriens has a major potential to recover the spermatogenic loss and increase sperm concentration as well as to reduce stress levels. Besides improved sperm quality & motility.

The ingredients such as L-Arginine and L-Carnitine in **AMS® Motility Max** help intensify libido and increase blood flow & boost cellular energy levels, respectively.

Mucuna pruriens and Its Major Constituent L-DOPA Recover Spermatogenic Loss by Combating ROS, Loss of Mitochondrial Membrane Potential and Apoptosis. *Singh, A. P., et al (2013).*

- M. pruriens efficiently recovers the spermatogenic loss induced by EE administration. The recovery is mediated by reduction in ROS level, restoration of MMP, regulation of apoptosis and eventual increase in the number of germ cells.
- Upon M. pruriens administration, "We observed significant recovery of mitochondrial membrane potential coupled with a gain in sperm motility".

Mucuna pruriens

- ✓ Improves semen quality
- ▼ Improves sperm concentration & motility
- ✓ Helps in the management of stress
- ✓ Restores antioxidant levels Shukla, K. K., et al (2010).

Speaker's Instructions:

Congress halls will be equipped with:

Two laptops: one Apple Mac & one PC with Microsoft Windows 11 and Microsoft Office 2019. Internet access will NOT be available inside the meeting rooms.

To ensure that the meeting progresses smoothly, please stick to the following instructions:

- All presentations should be recorded on a USB flash memory (preferred).
- Please save presentations in PowerPoint 2007 or later format for PC & Keynote for Apple.
- Upload your presentation early to the Audiovisual Center (RM Events) as we will load the presentations to the hard drive of our systems before the sessions by one hour.
- No personal laptops are permitted for presentations.
- In case you have problems with your presentation(s), please do not hesitate to contact the IT support team (RM Events).

So make sure to present during the given time, as NO EXTRA TIME IS ALLOWED

Tadanerfi 5 mg ODF

Tadalafil 5 mg

Treatment Of The Signs And Symptoms Of Benign Prostatic Hyperplasia In Adult Males

THURSDAY 19 DECEMBER 2024

DAY ONE

09:00 - 16:00 Registeration

10:30 - 10:40 **Welcome Message** *Osama Ghattas*

PLENARY 10:50 - 12:00 **SESSION** The Evolution of Andrology Chairpersons: Ahmed El Assmy, Ege Can Şerefoğlu, Hafez Mannaa Penile prothesis: when and which approach? 10:50 David Ralph Management of ED in prostatic cancer patients 11:05 Osama Ghattas 11:20 The minimally invasive infrapubic approach for the penile prosthesis implant Gabriele Antonini Penile implant road to success 11:40 Yaman Fİ Tal Discussion 11:55

12:15 - 13:00
Opening and Appreciation Ceremony
Chairpersons: Ahmed Zaghlol, Osama Ghattas

SESSION 1	13:00 - 13:45 Andrologic Issues of Debate in Pediatrics
	<u>Chairpersons:</u> Ahmad Elderwy, Doaa Khater, Erfai Emtair, Hassan Ali Gad
